

LIST OF SOCIAL BOOKMARKING SITES WITH GOOGLE PAGERANK & INDEXED PAGES

Sites with PR5 and Above

Quick, name an online bookmark service. What comes to mind? Digg? Del.icio.us? StumbleUpon? Mixx? These are some of the most commonly used services, but they're not alone. There are hundreds of places that let you save your bookmarks online.

This list names 100 social bookmarking sites and includes the PageRank for the site's homepage, as well as the number of pages indexed in Google.

NOTE: The PageRank and indexed links information comes from the SEO Quake add-on for Firefox and was pulled in January 2008. Please note that PR and indexed pages are subject to change. To check today's data, download the Google toolbar, SEO Quake add-on or another tool.
